LIBRARY CIRCULAR NO. 15

Reports issued by Joint Intelligence Objectives Agency

There has been some confusion between Publication Board Reports and JIOA Reports, chiefly because after reports listed by JIOA have been declassified they are listed for the general public by the Publication Board. The procedure for ordering Publication Board Reports is covered by Library Circular No. 14.

JIOA Reports are obtained free of charge for official use through the Department Library.

Many of the Reports issued by the JIOA are classified and must be handled in accordance with their security classification.

All requests for reports on JIOA lists should be sent directly to the Department Library which will forward them to the JIOA. As soon as the reports are received from the JIOA the Library will send them to the agencies who requested them. There is no charge for JIOA reports and they may be treated as expendable material. They may be ordered by a memorandum listing all reports requested on a single page.

Since the JIOA frequently holds off mimeographing their reports until they hear from all government agencies, there is often a time lag of 3 or 4 months or more between the time we request the reports and the time they are actually received.
